# Problem

Duh, butuh healing  
tapi bingung mau  
healing kemana

- Orang cenderung merasa tertekan dalam kehidupan sehari-hari dan membutuhkan "*healing*" atau pelarian singkat sehingga mereka dapat melepaskan stres dengan bepergian ke suatu tempat dan kembali dengan pikiran segar (**Capaldi et al. 2014**) (**Morita et al. 2007**). Masalah di kalangan generasi muda adalah mereka tidak tahu ke mana harus pergi.
- Banyaknya tempat wisata di Indonesia membuat informasi terkait pariwisata tersedia secara luas, namun hal ini menyebabkan kebingungan dalam mengambil keputusan. Menurut Badan Pusat Statistik, terdapat 2.958 Perusahaan Tempat Wisata Komersial. (<https://www.bps.go.id>)

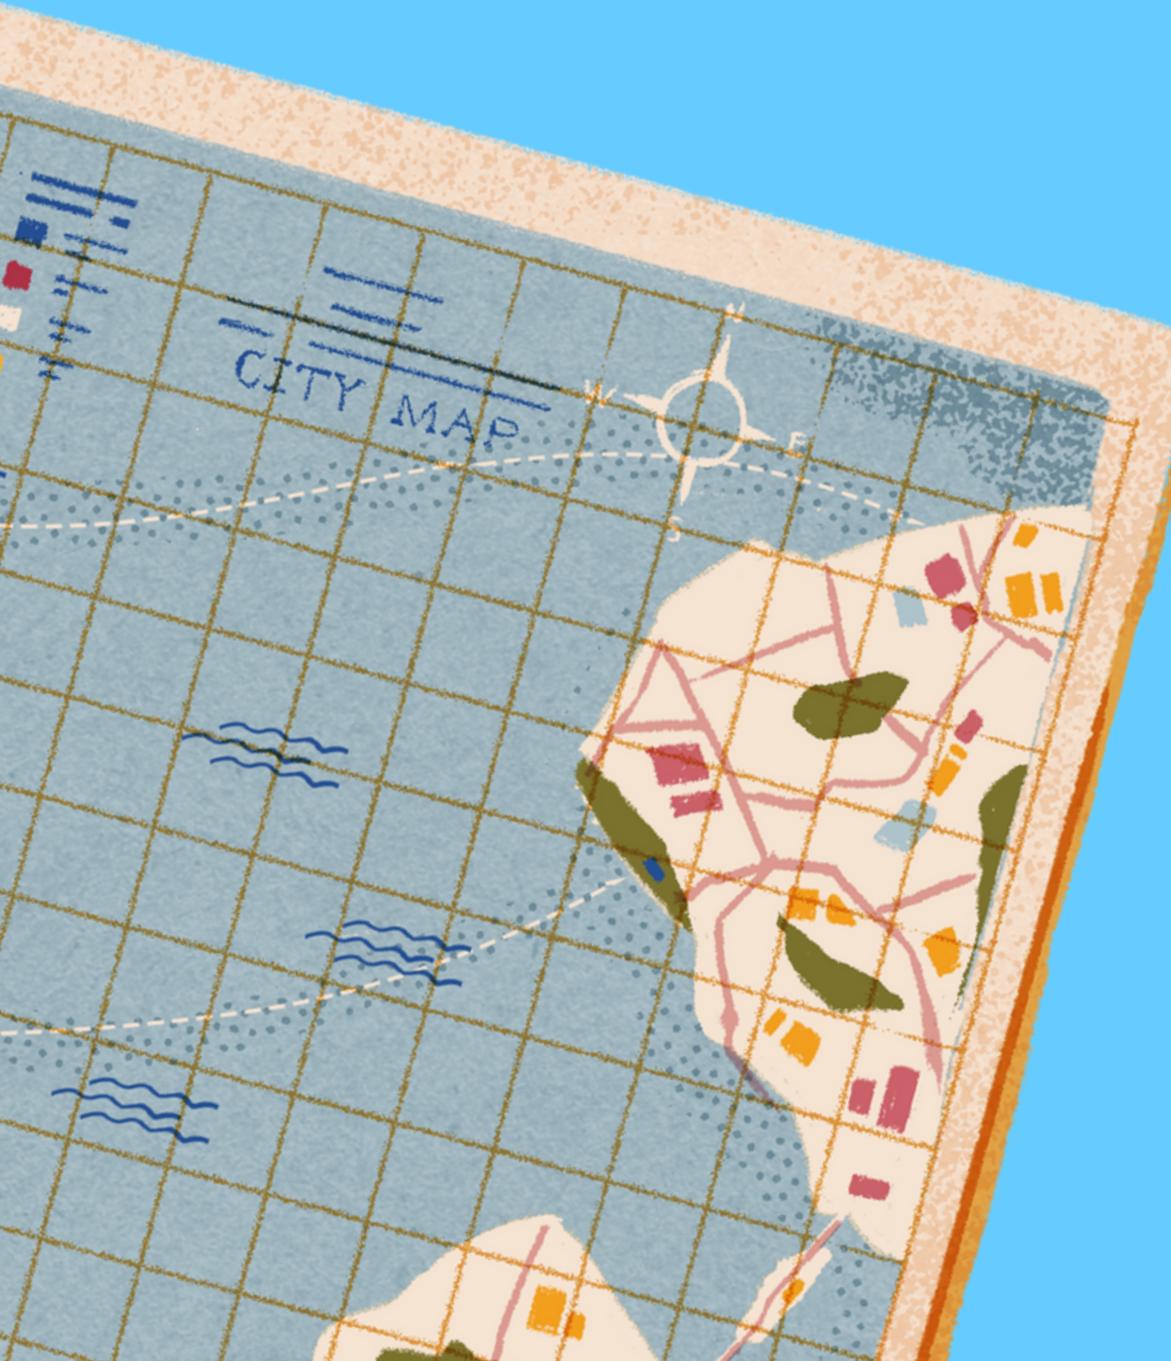

TripAja merupakan aplikasi yang merekomendasikan suatu tempat wisata dalam rangka membantu orang untuk melakukan “healing”

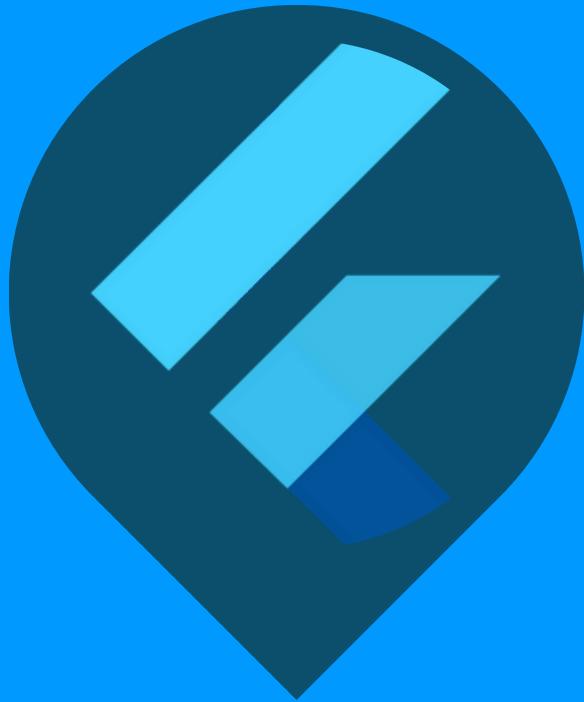

# My Role

- Membagi tugas untuk setiap anggota tim dalam mengembangkan aplikasi TripAja, seperti pembagian pengeraan fitur
- Mengembangkan arsitektur aplikasi TripAja dalam bentuk Model-View-ViewModel (**MVVM**)
- Mengembangkan fitur **Questionnaire & Recommendation Card**, baik UI/UX dan integrasi fitur terhadap API
- Mengintegrasikan seluruh fitur terhadap **database & API**

The image displays four mobile phone screens showing different pages of a travel application:

- Home Screen:** Shows a "Welcome, User" message and a "Get Started" button. Below, it lists "Top Destination For You" with cards for "Malioboro Yogyakarta" (a street sign at night), "Pantai Jawa Barat" (a beach), "Dunia Fantasi Jakarta" (an amusement park), and "Taman Mini Jakarta" (a miniature park). The bottom navigation bar includes Home, Discover, and Profile.
- Discover Screen:** Titled "Discover", it encourages users to find new destinations. It features a search bar and filters for All, Beach, Mountain, Park, Temple, and Waterfall. Below are cards for "Malioboro Yogyakarta", "Pantai Jawa Barat", "Dunia Fantasi Jakarta", and "Taman Mini Jakarta". The bottom navigation bar includes Home, Discover, and Profile.
- Destination Detail Screen:** Shows a large image of Nusa Penida's Broken Beach. The title is "Nusa Penida" and the subtitle is "Destination Overview". Text describes Nusa Penida as a part of Indonesia located off the south-east coast of Bali. It includes a "Book now" button and a location pin icon. The bottom navigation bar includes Home, Discover, and Profile.
- Profile Screen:** Displays a user profile for "Prilla Rosaria" with a photo, edit icon, and a greyed-out "Information" section. It also includes "Preference" options for Language and Logout. The bottom navigation bar includes Home, Discover, and Profile.
